Network Communication Platform

Unified Communications
Anytime, Anywhere
Panasonic Communication Assistant

As personal computers have become an essential business tool, Panasonic has developed a Network Communication Platform to seamlessly integrate with advanced desktop productivity applications for improved business efficiency.

The Panasonic Communication Assistant productivity software suite is a highly intuitive PC based application suite. It blends powerful point and click telephony together with screen based presence, integration with Microsoft Outlook®, CRM desktop tools, and a great variety of other features to simplify and enhance real-time communications for business telephony users. Designed for easy installation and maintenance, Communication Assistant can be deployed without the need of any additional 3rd party server, making it an ideal solution for small to medium size businesses.

Communication as a factor of success

Enhance your business with solutions designed to meet your ever changing communication needs. With wireless mobility, advanced productivity applications, network based solutions and a common infrastructure that supports companies with distributed and geographically diverse office locations, help connect all your users with customers – wherever they may be.

Simple to deploy, administer and maintain – the Panasonic KX-NCP Unified Communications Solution is a highly reliable, expandable and feature-rich business platform that integrates with your converged voice and data network, providing you with improved business productivity.

Facilitating more effective ways of communication with both your employees and customers, the KX-NCP platforms allow anytime anywhere access to a whole host of business communication applications via a range of smart and user-friendly wired and wireless devices. KX-NCP platforms, enabling businesses to enhance employee productivity, streamline communications and lower overall costs.

CA Basic
Point and click Unified Communications for desk based or remote workers. CA Basic helps you visually control all your communications from your PC.

CA Pro
In addition to CA Basic the CA Pro provides users with real-time presence information. It allows visual control of all your communications from a PC and you stay informed of users availability in different locations.

CA Supervisor
CA Supervisor is the perfect tool for team supervisors to monitor employees' call activities. It helps you visually manage all your group members telephony activities.

VM Assistant
VM Assistant enables unified messaging and allows users to check their voicemail messages visually from a PC. It also allows you to forward messages to others as .wav files.
The Panasonic KX-NT300 Series advanced IP desktop phones are designed for business users who require a range of feature-rich telephony devices to complement their constantly changing business needs. Connected to the NCP platforms, the IP terminals are extremely reliable and provide a wide range of features to support the right solution for all your business applications. Ergonomically designed with features and functions to enhance users daily productivity, they are ideal for many applications including contact centre agents or advanced desktop applications supporting a range of wired and Bluetooth headsets.

### Wireless for NCP series

Panasonic Office Communication Systems allow wireless communication over an extended range by using multiple cell stations that boost the flexibility and mobility of your wireless handset. Using the Wireless XDP, you can set your wireless telephone to have the same extension as your desk phone, so you can receive calls even when you are away from your desk.

### Benefits of Wireless Telephone Integration

- Up to 64 handsets can be connected to one system
- Secure high-quality speech reproduction and excellent reliability
- Caller ID name and number compatibility
- Programmable multiple ring patterns including vibrate mode

### DECT 6.0

- Integrated speakerphone
- 3 appointment calls / alarm clock
- 10 languages for menu navigation
- 6 polyphonic ringtones and 6 further ringtones
- Different call indications for internal, external etc. calls
- LED call indication (red, green, orange) to differentiate between external/internal/VP calls
- Headset-jack
- IP54 compliant (exceeds strict dust and splash resistant standards)

### Optional Bluetooth Mode

Supports Bluetooth® headset and mobility functionality. Enjoy the freedom to communicate wirelessly with crystal clear voice quality. Receive your customers’ calls wherever you may be and make the most of every business opportunity that comes along.
